

## Corporate Environmental Policy

Masland Contract is committed to environmental stewardship and sustainability in all aspects of our business. We strive to continually improve our environmental performance and to constantly look for new and innovative ways to reduce our environmental impact.

### Goals and Commitments

Masland Contract is committed to providing a safe and healthy environment for our associates and communities.

Monitor our environmental progress by conducting annual comprehensive environmental audits of each of our facilities.

Comply with applicable federal, state and local environmental laws and regulations.

Include in the product development process emphasis on products utilizing recycled content and/or rapidly renewable resources.

Invest in technologies to reduce conserve energies, minimize and safely dispose of process by-products, and comply with stringent air and water quality standards.

Communicate these goals and commitments to our associates, customers, suppliers and other stakeholders. These policies are on our web site at [www.maslandcontract.com](http://www.maslandcontract.com) and will be made available upon request.

### Goals and Achievements

Offset 100% of our energy usage by purchasing Green-e credits

Our goal is to recycle 90% of generated waste, to achieve landfill avoidance from 2005 levels. Achieved 91% by end of 2010.

Our goal is to reduce electricity consumption per square yard by 15% from 2005 levels.

Our goal is to reduce natural gas usage by 40% from 2005 levels. Achieved 12% in 2007.

Reduce water usage per square yard by 45% from 2005 levels. Achieved 20 % in 2010.

Improved Safety Incident Rate from 3.52 in 2000 to 1.17 in 2010.
