

HARDWEAR 24

An attached cushion composed of high density, reaction bonded urethane. Hardwear 24 is applied to carpets with existing latex woven polypropylene, allowing for “off the shelf” delivery with reduced lead time.

Applications: Corporate, healthcare, hospitality, retail, food service

Features: Hardwear 24 is designed for extra heavy foot traffic and heavy rolling traffic.

- Increased comfort under foot
- Extends carpet life
- Available on all Masland products.
- Wet/Dry – 99.7% as tested by the 10,000 cycle penetration test
- Chemically frothed for superior cushion consistency
- High performance warranty
