

## Permian Bac™ MP Moisture Barrier Backing (MP)

**DESCRIPTION:** Permian Bac™ MP is an acrylic based non-cushion backing system that is applied in house.

**FEATURES:** Permian Bac™ MP passes the British Spill Test and is specifically designed for heavy traffic where a moisture barrier is required.

- Available on all tufting technologies
- Excellent wet/dry tuft bind and delamination properties
- Performance properties not affected by moisture
- Applied in house and reduces lead time compared to other backings

**TYPICAL END USES:** Recommended for airports, convention centers, sports arenas, food service, educational, retail, healthcare, etc.

**SPECIFICATIONS:**

Primary Backing – Woven Polypropylene

Secondary Backing – Woven Polypropylene

**ADHESIVES:** Atlas | Masland Premium carpet adhesive. Atlas | Masland Seam sealer must be properly applied to maintain a moisture barrier.

**SPECIAL INSTRUCTIONS:** Available from Atlas | Masland Technical Services at 800-633-0468.
